

Supreme Benefits Representative

The Knights of Columbus Insurance Department is not only most reliable, but also the most progressive. In addition to the stellar Life and Annuity plans, we recognized that we were an aging organization that required additional offerings. In response to this, we added Long Term Care coverage, both comprehensive and home care. Again, responding to the needs of our members, we just added Disability Income coverage. Middle aged members, raising young families had an income risk which would threaten the well-being of the family unit, and we took action to fill the need. In an effort to reduce the payment period of juvenile dependents, we just introduced the 10-Pay Life plan. Instead of the traditional 20 years to provide paid up insurance on our children, grandchildren or any insured, we took the initiative to cut the premium paying period in half.

Adding plans as a Fraternal Insurer is not easy. The commercial companies, with their lobbying budgets, resist our efforts to compete with them. Because of our decisive competitive advantages, they would love to see us go away, but the vision of Father Michael McGivney lives on—stronger than ever! Don't let the opportunity to participate in this benefit package, available exclusively to only you and your family members, any longer! Call your representative today.

Fraternally Yours in the Spirit of Columbianism,

Paul E. Stottele, FICF, CSA 716-627-2664
